

# Montana PITCH-BLEND®

## DID YOU KNOW?

### Our premium all-natural leather treatments...

- **Are made from only NATURAL leather-friendly ingredients** (pine pitch, pure mink oil, and natural beeswax) for safe and effective cleaning, conditioning, protecting, and preserving of rugged leather goods,
- **Contain NO silicone, petroleum, alcohol, chemicals, or artificial ingredients,**
- **Are completely SAFE for all rugged leathers and stitching** (any outdoor leather equipment, apparel, or footwear including boots lined with Gore-tex or Thinsulate),
- **Keep leather SUPPLE** without needing heavy application (a little of our product goes a long way), and no excess softening, sagging, or stretching,
- **Help to PREVENT the growth of destructive mildew, mold, and fungus** in leather, and also discourage pest damage,
- **Have a PLEASANT NATURAL PINE SCENT** (effective as a natural cover - won't alarm game) without any offensive, chemical, or tar odor,
- **Will EXTEND THE LIFE** of one's investment in rugged leather for years to come,
- **Have been USED AND RECOMMENDED WORLDWIDE for over twenty years by leather professionals:** boot makers and cobblers, saddlers, bow and rifle hunters, ranchers, motorcyclists, loggers, and countless others who work with and depend on their leather equipment and apparel.

### Montana Pitch-Blend

## LEATHER OIL & CONDITIONER

Made of Pine Pitch & Mink Oil

8oz Bottle  
(Also available in larger sizes:  
32oz & 128oz)

- Rich conditioning preservative, with water resistant protection.
- Replenishes natural oils, renews leather, restores suppleness.
- Ideal for maintaining and restoring new, neglected, antique, or damaged leather.

*Exquisite all-around conditioning oil for maintaining beautiful rugged leather in any climate or condition.*

### Montana Pitch-Blend

## LEATHER DRESSING

Made of Pine Pitch, Mink Oil, & Beeswax

4oz Jar  
(Also available in larger sizes:  
12oz & 52oz)

- Rich conditioning preservative paste, with the very highest water repellency.
- Gives leather a deep, rich glow when buffed.
- Leaves no residue behind in carved or tooled leather.

*Same rich conditioner as our Leather Oil plus even greater protection and water repellency for tougher climates and uses.*

### Montana Pitch-Blend

## LEATHER OIL SOAP

Made of Pine Pitch, Mink & Vegetal Oils

8oz Bottle  
(Also available in larger size:  
128oz)

- Oily liquid soap created for optimal cleaning and preparation of soiled leather before applying Oil or Dressing.
- Uniquely helps to protect against stripping away of natural oils and fat within the leather during cleaning.

*A handmade true soap (not a detergent) formulated with excess oils and fats for gentle yet effective cleaning.*

## Why do Natural ingredients matter?

**It matters to those who know best: Leather Professionals** who constantly remind us that they prefer to use our natural ingredients because they simply perform better, last longer, and are more pleasant to work with. They tell us other products with cheaper oils and waxes, petroleum, silicone, or artificial ingredients are far less effective, some even harmful to leather. **But our "leather-friendly" natural ingredients are selected for their specific benefits to the leather,** and unlike other products we proudly list all our ingredients right on our labels.

**PINE PITCH (tree sap)** has been used for centuries as a powerful natural preservative with the highest natural antibacterial, antifungal, and healing properties. **Pitch is the powerful preservative in all our products.** It also provides greater adhesion and endurance under extreme conditions where other products fail. A little of our product goes a long way because of its long-lasting properties. And our products are the most pleasant to work with because of a mild pine scent, which is highly preferred to products with offensive odors.

**MINK OIL** is an exquisite conditioning oil with no equal, being a super-emollient and the most optimal and luxurious choice for rugged leather care than any other oil, whether animal, vegetal, or synthetic. Mink Oil restores and maintains leather's suppleness by replenishing oils lost over time or from exposure. Mink Oil is naturally water resistant and also has the highest natural SPF of any oil. **NOTE: Only pure Mink Oil is used in our products** - we never dilute and never use cheaper oils.

**NATURAL BEESWAX** is the pinnacle of natural waxes and is virtually impervious to water. When blended into our Leather Oil the result is our amazing "Leather Dressing" paste: A genuine 3-in-1 Preservative/Conditioner/Water-Repellent that always exceeds expectations, going way beyond other so-called "waterproofers" on the market that often don't live up to their claims. **Our Leather Dressing outperforms all other products, even in the most extreme conditions.** Beeswax is also naturally antibacterial and can be buffed to a lustrous top finish.

## What do customers say about Montana Pitch-Blend?

### N.W., Laramie, WY

*"I love Montana Pitch-Blend. I use it on my boots & gloves... it has successfully kept me dry during some very treacherous weather."*

### S.S., Lincoln, NE

*"We found your product at a leather/saddle shop about a year ago and decided to give it a try. I can't begin to tell you how great this stuff is!!"*

### S.W., Ridgeland, MS

*"I wouldn't use anything now but Montana Pitch-Blend. I use it on my Danner boots, rifle slings, ammo carriers, shoes and other boots."*

### L.N., Boston, MA

*"Because your products are all-natural and not loaded with silicone, etc, I've found that your polish sets in quickly and deeply into shoes."*

### P.B., Hope, ID

*"I have been using Montana Pitch-Blend Leather Oil for some time now. It is excellent on leather but I also use it to recondition old dry wood such as wooden knife handles and gun stocks. It really dresses up old furniture like no other oil. I found an old duck call that was lost in a marsh for 20 years - I added the oil to it and it looks like new!"*

### D.H., Laurel, MT – Survival Consultant

*"I put Montana Pitch-Blend through some rigorous tests and it's the best."*

### S.W., Switzerland

*"Your products became my absolute favorites for leather care after hearing about them from a leather crafter in Idaho. Personally, I feel absolutely convinced on the quality of your traditional products. Even more because they apparently are free of chemical ingredients. The smell of the Leather Dressing is great and just right for a traditional woodman's nose as mine."*

### M.M., Oak Hill, VA

*"Great product. I have used it many times. Gave two containers to friends, now they understand why I use your product."*

### C.P., Jackson, MS

*"I have never had a problem with water or wet feet while section-hiking the Appalachian or other trails. I would warm myself by the fire but had no need to dry my leather Vasque boots as I had treated them with Montana Pitch-Blend and they were effectively water proof."*
